Rick P. Calpitano, Owner of Oasis Builders LLC d/b/a (ERG) Environmental Restoration Group

My “30 + years” of construction experience stems from professional costs analysis to full project management of various construction and insurance restoration projects originating from new custom homes and renovations, to fire and water damage, vehicle and aviation impacts, sink-hole, hurricanes / natural disasters, mold / Chinese drywall remediation and indoor air quality projects of commercial, residential, historical and industrial properties.

These 30 + years’ experience has taken me through South Florida, which also cover, renovations and new construction projects, involving luxury high-rise condos, vacation homes, ski-resorts, ocean front estates, restaurants, schools, medical facilities, hospitals, green building technology and true historical restorations throughout portions of South Florida.

For the past 30 + years I have resided in South Florida, generally specializing in insurance restoration repairs and reconstruction, and have past served as a quality vendor and part-time educator for many insurance property adjusters.

We are a 30-year veteran building consulting firm, State Certified General Contractors & State Certified Roofing Contractors, specializing in fire and water restoration, emergency catastrophe response and structural repairs. We specialize in professional consulting and forensic property inspections with detailed cost analysis and cause and origin, as well as State Certified Mold Assessments, Chinese drywall testing & remediation protocols, remodeling, contracting, appraisals, expert witness services and full project management services for homes, luxury high-rises, historical and commercial properties. I have in the past served many major insurance carriers in the capacity as a quality vendor and expert consultant on various pro-contractor programs, throughout South Florida.

In the past 30 + years, as an insurance restoration consultant / contractor, I have been directly involved and responsible for the initial inspections, damage cost analysis and assisted in negotiation settlements, due-diligence, contracts, purchasing and sales, as well as locating specialty manufactures of various building components to full orchestration and customer relations of each and every project engaged for the company, for well over 5,000 + projects.

Also and most recently for the past 10 + years I have been primarily retained as an expert and construction consultant, providing forensic and detailed cost estimations in the evaluations of all types of property damage for many homeowners, insurance professionals, independents and attorneys alike, with respect to damaged residential, commercial & industrial properties, ranging from emergency management services, to major water losses, floods, fires, vandalism, arson, mold and all types of natural disasters. I have been directly involved in the costs estimation and assisted in the full negotiations for property damage settlements for many past hurricane losses throughout South Florida, as well as other various types of losses, ranging in costs up to \$3,000,000.00. Our offices are strategically located in Boynton Beach, Florida. Servicing all of South Florida Since 1988.
